

Virtual Group Program for Cancer Survivors with Fear of Recurrence

Image: Simon Migaj

You may be eligible if you:

- ✓ *Are over age 18*
- ✓ *Have completed cancer treatment*
- ✓ *Fear getting cancer again*

Researchers at Massachusetts General Hospital are testing a mind-body intervention for patients with fear of cancer recurrence

Participation may involve:

- **Attending either a virtual skills-based group program consisting of 8 (90-min) weekly sessions or a virtual support group**
- **Completing 3 surveys and an exit interview to provide feedback**
- **Compensation up to \$100**
